DW VMAX MOBILE SETUP FOR ANDROID

7

name the site and enter
the info from your
reference card.

The image shows a tablet displaying the DW VMax mobile application setup screen. The screen has a black background with white text and input fields. At the top, there is a status bar showing signal strength, 4G LTE, 45% battery, and the time 12:52 PM. Below the status bar, the app title 'DW VMax' is visible. The setup form includes the following fields:

- DVR Type:** A dropdown menu currently showing 'VMAX480'.
- Site Name:** A text input field containing 'TEST'.
- IP Address:** A text input field with the placeholder 'IP Address'.
- Port:** A text input field with the placeholder 'Port'.
- UPNP:** A button labeled 'UPNP Search'.
- User ID:** A text input field with the placeholder 'User ID'.
- Password:** A text input field with the placeholder 'Password'.

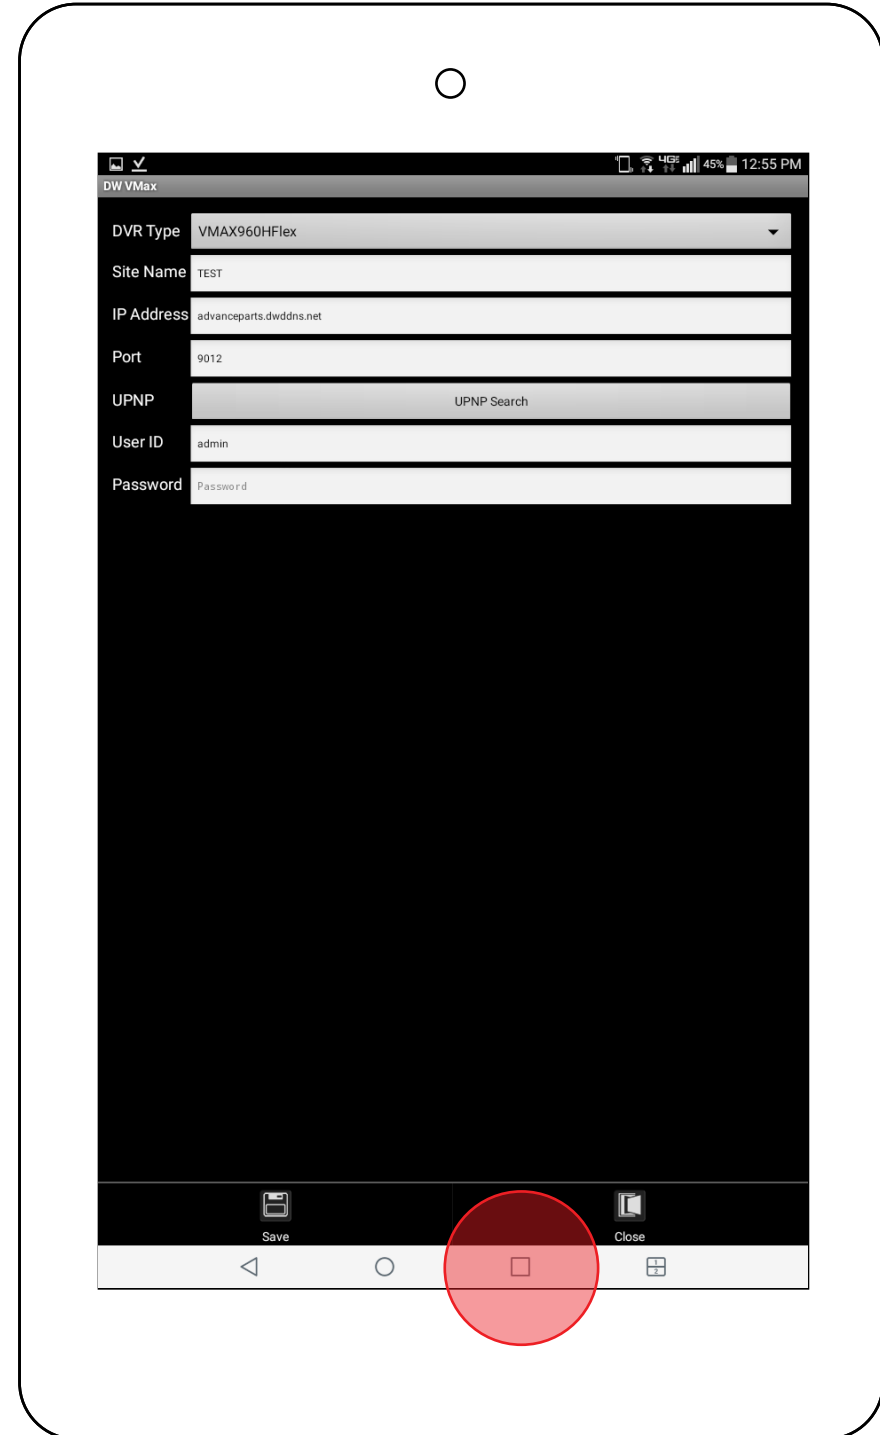

At the bottom of the screen, there is a white navigation bar with four icons: a back arrow, a circle, a square, and a grid.
